

Hamilton - I Know Him

```
That?s that little guy who spoke to me
                 tom:
                                                                      All those years ago
Intro: G G7 C Am7 D7
                                                                      What was it, eighty-five?
[Primeira Parte]
                                                                      That poor man, they?re gonna eat him alive!
                                                                            Fm
They say
                                                                      Oceans rise
George Washington?s yielding his power and stepping away
                                                                      Next to Washington, they all look small
?Zat true?

I wasn?t aware that was something a person could do
                                                                      All alone
  Em
I?m perplexed
                                                                      Watch them run
 G
Are they gonna keep on replacing whoever?s in charge?
                                                                      They will tear each other into pieces
If so, who?s next?
                                                                      Jesus Christ, this will be fun!
       G
There?s nobody else in their country who looms quite as large
                                                                      [Final]
(A sentinel whispers in King George?s ear)
                                                                                    G7
