

# Hanson - Already Home

Tom: C

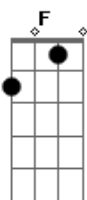

You've been trapped in a moment C F  
'Cause you've been running in place C F  
And now you're casting a shadow C F  
That's hanging long on my face C F  
I see you keeping your distance C F  
But you're not telling me why C F  
You're looking to the horizon C F  
Instead of here and now tonight G F  
I don't know what is broken G F  
You act like you don't belong here anymore G F  
If you've really lost something G F  
Maybe you should start where you've been before C F  
I think you're already home C F  
I think you're already home C  
But you keep running 'round in circles boy, you'll end up F C F  
Right back at the eye of the storm, C F  
oh oh oh oh  
When you see your reflection C F  
Do you recognize yourself C F

'Cause every word that you say C F  
I hear another cry for help G F  
If you can't see it G F  
Why don't you open your eyes G F  
I'm right here waiting G  
You don't have to go far C F  
Because you're already home C F  
I think you're already home C  
But you keep running 'round in circles boy, you'll end up F C F  
Right back at the eye of the storm, C F  
oh oh oh oh C Em G  
When you're all fed up being down C Em  
When you're all fed up G  
You'll be the last man standing on the battleground C Em G  
When you're all fed up being down C F  
You can come home to this town C F  
I think you're already home C F  
I think you're already home C  
But you keep running 'round in circles but you end up F C F  
Right back at the eye of the storm, C F  
oh oh oh oh
