

Hanson - I Am

Tom: C

I. Hanson / T. Hanson / Z. Hanson

[Intro:] F C F

Gone astray, we find ourselves

Right on the edge of falling apart

Don't you see it's in our ways

When something's done wrong, just go along

Lights a fire inside of me

Just show me when this living stops

I am father and son

I am all that I fear

I can choose to give up

We could tear the world apart

Tear the world apart

We could tear the world apart

Cut the cord and start to breathe
We're living life at frantic speeds
Don the suit and ride the steed
With these shackles on we won't conquer harm
But I could be the worst of these
A sinking ship in the open sea

Tear the world apart

We could tear the world apart

All on my own I'm trying

To change how you see what you believe

To fight fire with fire and never

The Lord is the light burning

Tear the world apart

We could tear the world apart

We could tear the world apart

We could tear the world apart
