

Hanson - Runaway Run

Tom: C

[Intro:] C F G

G C F
And I waited for you
G C F G
And I waited for you

C F G
Just a picture and a feeling and a face
C F G
How could I forget your touch your warm embrace
C F
And the shoes you wore with long black satin lace
G C F G
As you walked into my mind

As I walked into this old forgotten hall
Just one look and I began to fall
Wish I could frame you and this feeling on the wall
To stare at 'til there is no time

Am F G Am
And I waited for you
F G Am
Just hoping that you'd come back to me
F G
And I waited for you

C F
Run, run, runaway run
G
Maybe someday I will find someone too
C F
Run, run, runaway

G
Maybe some day, maybe some day

From a distance watched the flowers brush your cheek
As you read the words I wrote I couldn't speak
But now I lay here broken heart and blistered feet
As you're spinning 'round my mind

And I waited for you
Dreaming of you coming to me
And I waited for you

F
When you weep you can know that it's all right
C
As you sleep I'll just follow your door light
Dm G
We can talk just as long as you hold on tight
Just one breath is a million sighs

I can tell ever breath that you're breathing
I can feel every thought that you're thinking
We can talk it's a thousand years gone by you and I
