        Bm               G              A                D
And on a warm day, I came home to find that she had sailed
away

Cecilia with flowers in her hair was like a sun, brought me
the life

And I can?t tell you for the life of me why I would choose to
let it burn out
G           Bm        A           D
I wish I was numb, alone here in my cell
```

```

Won?t you save me from myself

Like a living shadow where there once was bone
Em              Em 5
One cut deep and the other went sour

G            Bm        A             D
Maybe I am lacking still inside my shell
G             Bm                               A
'Cause I keep making waves and falling victim to the swell

Please save me from myself
