

# Harley Poe - Everybody Knows My Name

tom:

**Dm**

I'm the one, I am ignored

When your teenagers are bored

Foolishness will hand their careless lives to me **A**

They don't fear what they don't know

Through their ignorance I glow

As they flicker from this dream I'll set them free **Dm**

**Dm**

Through cancer and disease

I'll take with me whom I please

No need to run, you can fight and face defeat **Bb**

Through religion and deceit

**F**

And science and conceit

Try to stop me, but in the end I can't be beat **Dm**

**Dm**

I'll be at it once again

You'll all face me in the end

It should be fun, as I swat you down like flies **A**

So when it's time for you to go

Don't you cry, 'cause don't you know

It's a point at once for every man to die **Dm**

**Dm**

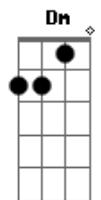

So what happens when you're dead?

Ain't my problem but I've read

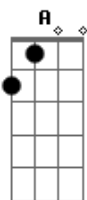

You'll burn in Hell, for all eternity **Bb**

Life wasn't all that great
