

Hateen - 404 not found

```
gtr 2
Intro: (just bass and drums)
                                                                Intro: (just bass and drums)
"... connections made.. feelings start to fade away..."
                                                                "... connections made.. feelings start to fade away..."
                                                                "...i'm feeling like i'm lost insiiiiide... myyyyseeelf..."
"...i'm feeling like i'm lost insiiiiide... myyyyseeelf..."
                                                                "... seems it's all you really want..."
"... seems it's all you really want..."
                                                                "...seems it's all you really need..."
"...seems it's all you really need..."
                                                                "... to increase hate.. sorrow.. pain and loneliness..."
"... to increase hate.. sorrow.. pain and loneliness..."
                                                                "... then lost loves.. and lost friends.. will never come back
                                                                again...
"... then lost loves.. and lost friends.. will never come back
again..." "..my frieeend.."
                                                                "...double clicking my emotions..."
                                                                "...i'm feeling like i'm lost insiiiiide... myyyyseeelf..."
"...i'm feeling like i'm lost insiiiiide... myyyyseeelf..."
(second time)
                                                                                          ...MY FRIEND..."
                                                                "agaaaaain...
"agaaaaain...
                          ...MY FRIEND..."
                                                                "...404 not found again..." (only bass and drums)
"..404 not found again..." (only bass and drums)
                                                                "404 not found again..." (only gtr 1 for a part)
"404 not found again..."
                                                                and then..
                                                                "404 not found again..." (screamin')
```
