

# Hayley Kiyoko - Cliff's Edge

Tom: C

Estrofe 1:

Swing a little further, higher

Underneath the big top trees

Scrape my knees, whatever, uh huh

I'm gonna let them bleed

God, no turning back, some are fine with that

Get a little closer

Get a little closer

Refrão:

Cliffs edge, you turn me on

You lead me on

You got me on

A cliffs edge, where I belong

You got me on

And turn me on

I wanna feel that sea breeze

I wanna feel that sea breeze

C

Estrofe 2:

Love until we burn up, fire

Do whatever gets you seen

Kiss me with adventure

Til I forget my name

Chills run down my back, I'm a flirt with that

Get a little closer

Get a little closer

Refrão:

Cliffs edge, you turn me on

You lead me on

You got me on

A cliffs edge, where I belong

You got me on

And turn me on

I wanna feel that sea breeze

I wanna feel that sea breeze

Closing in closer to you

This could take all night

Caving and crumbling on your

hips, your lips, they're mine

Closing in closer to you

This could take all night

Caving and crumbling on your

hips, your lips, they're mine

Refrão:

Cliffs edge, you turn me on

You lead me on

You got me on

A cliffs edge, where I belong

You got me on

And turn me on

I wanna feel that sea breeze

I wanna feel that sea breeze
