                                                                 I'm real and I don't feel like boys
G
Stealin' kisses from your misses
                                                                 Saw your face, heard your name
Fm
Does it make you freak out?
                                                                 Em
                                                                            С
                                                                 Gotta get with you
G
                                                                                        D
Got you fussin', got you worried
                                                                            Em
                                                                 Girls like girls like boys do
Scared to let your guard down
G C Em
Boys, boys
                                                                 Nothing new
                                                                 G
                                                                 Isn't this why we came?
                                                                 Em
Tell the neighbors I'm not sorry
                                                                 Gotta get with you
                                                                                        D
Fm
                                                                           Fm
                                                                                               C
                                                                 G
If I'm breaking walls down
                                                                 Girls like girls like boys do
Building your girl's second story
                                                                 Nothing new
                                                                          Em
Fm
                                                                                      D
