

Hayley Williams - Wait On

tom:
Capo: traste na 5ª casa
Intro: G Am D

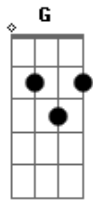

G
I don't wanna wait on you
But it's just what I keep doing
G
As if I got nothing to do
As if my life won't keep on going without you
(D)
G
The sky will wake up every morning
G
And sometimes feels the need to pour out
G
All the feelings it's been holding
But either way, it never comes down
It knows it place, it knows a way around the clouds
And their design
(Am D)

G
For every fairytale untrue
And all the hearts yet to be broken
G
For every bird who never flew
Well it's no wonder we keep going, without you
(D)
G
The sky still wakes up every morning
G
And sometimes feels the need to pour out
G
Ev?rything it's tired of holding
But either way, it n?ver comes down
It's gonna stay and find a way around the clouds
G
There was a bird who never flew
But she still kept all of her feathers
G
So she could pluck 'em out for you
And you could wear them in your hair and she'd be with you
