

Helene Fischer - Everything I Need

tom:

Intro: Cm Fm Bb Eb
Cm Fm Bb

The sun that falls around your face is warm and light
Again we fall asleep and turn the day to night
We've been through oh so many things
The good and bad, we didn't have a ring
Sometimes you don't, don't have to wear a ring

And we didn't say yes but I know I have
Everything I need

Never changed my name but still I am blessed
'Everything I need

Now I'd say "I do" if you ever ask

But until then I know what I have

Everything I have's
Everything I need

Sometimes I think and wonder what I look

like dressed in white

But then I know the way it is, it feels so right

We belong, that I always knew

For those who want, they can say "I do"
Sometimes you don't, don't have to say "I do"

And we didn't say yes but I know I have
Everything I need

Never changed my name but still I am blessed
'Everything I need

Now I'd say "I do" if you ever ask

But until then I know what I have

Everything I have's

Everything I need

Words have no meaning, it's what I am feeling
Love is much more than a ring

And we didn't say yes but I know I have

Everything I need

Never changed my name but still I am blessed

'Everything I need

Now I'd say "I do" if you ever ask

But until then I know what I have

Everything I have's

Everything I need
