

Hey Violet - Break My Heart

```
Intro: A E B E
Verso 1:
I could not forget
All the wonderful things you've done
And I have no regrets
Done everything except for one
It's like a test, it's like a game
To see how much I can take
I'm curious to live and learn
So light me up and let me burn
Pré-Refrão:
Tell me you've never loved me
Tell me that it wasn't real
Just say you've found somebody else
I wanna know the way it feels
Tell me you've never loved me
Tell me it was just a lie
I wanna feel the pain
I wanna see the light
Refrão:
Break my heart
                Dbm B
Break my heart
Break my heart

Verso 2:
Pictures disappear
And every memory will fade
So cut me, baby, deep enough
So that the scar will stay
It's like a drug, I can't say no
On paradise I overdose
I'm curious to live and learn
So light me up and let me burn
