

Hillsong United - Glimmer In The Dust

```
Tom: B
                                                                A child face to face with my God
Intro: B
                                                               Lost in Your awesome Wonder
I was lost in a moment
                                                               While I wait I will not be afraid
A glimmer in time
                                                               My faith will remain all the same
Abm
Like a child chasing shadows
                                                               My hope in the things not yet seen
     Е
My back to the light
                                                                Found in the greatest of these
I was lost in a fog till
                                                                            Gb
                                                                I know that You love me
       F
You caught my eye
                                                                I know that You love me
    Abm
Through the smoke and the mirrors
                                                                Your love never fails
     Е
A glimmer of life
                                                                Your love never fails
I know there's a place I belong
                                                               When all's said and done
                                                               All that matters is Love
      Ahm
Where I'll see the fullness of Love
                                                                So let love take over
A child face to face with my God
                                                               Abm
                                                               Not just in part
          F
                                                               But in all that You are
Lost in Your awesome Wonder
While I wait I will not be afraid
                                                                Let Your love take over
My faith will remain all the same
                                                               I know there's a place I belong
My hope in the things not yet seen
                                                               Where I'll see the fullness of Love
Found in the greatest of these
                                                               Gb
                                                               A child face to face with my God
I found love in a moment
                                                               Lost in Your awesome Wonder
Exploding in light
                                                               While I wait I will not be afraid
At the cross where the curtains
                                                               My faith will remain all the same
Were ripped from my eyes
                                                               My hope in the things not yet seen
                                                                Found in the greatest of these
I found heaven in pieces
In glimmer and dust
                                                               When all's said and done
                                                               All that matters is Love
Broken glass in reflection
                                                                     Gb
                                                               So let love take over
Till we shine like the Sun
                                                               Not just in part
                                                               But in all that You are
I know there's a place I belong
                                                                          F
                                                               Let Your love take over
Where I'll see the fullness of Love
```
