 Poured out in blood wash romance
                                                             'Cause I know that You are here now
 It makes no sense but this is grace
                                                             Heart and soul
    And I know You're with me in this place
                                                             God I know that You are here now
                                                             Fix my eyes on the things that I can't see now
Here now
                                                                                            Rm
                                                             And all I see is the glory of Your name
All I know is I know that You are here now
Still my heart
                                                             'Cause I know that You are here now
Let Your voice be all I hear now
                                                             Still my heart

                                                             'Cause I know that You are here now
      But grace found my heart when logic ends

     The Friend of sinners came in stead
                                                             Fix my eyes on the things that I can't see now
