                                                         In the wonder of Your shadow step
Light up the way of Your heart
                                                         And I won't be afraid
Move me like You do the mountains
                                                         Dbm7 A
In every way, You never fail
E B Dbm7 A
Move me like You do the wind
And I'll chase Your voice through the dark
Fix my eyes on the unexpected
                                                         So have Your way, here God
