

## **Hillsong United - Towards You**

```
Intro: 4x: E B Gb
You took the fall
   Gb
That was destined for us
       F Gb
You saw our lives in need
   Eb Abm
And You showed us love
        E
Now neither height
B
Gb
Nor depth could tear us apart
Not a thing on earth could break this
Now we hear Your voice inside our hearts
 Abm
Like thunder
                В
Open up our eyes to see Your light
 Abm
So bright
Oh let's go, let's go, let's go
Take love where the hurt is
Let's go, let's go, let's go
             Abm
Take it to the lost
```

```
( E )
Verso 2:
              F
We've seen our sin
      Gb
With our guilt disappear
                                       Gb
We've seen the walls crash down
            Ebm Abm
That once held us in fear
The strongholds fell
 Gb
That once kept us from You
Nothing but Your love could save us
Ponte:
You are all we need
          Abm
So we will turn and run towards
E B Gb Abm
You
(E B Gb Abm)
  Е
                  В
Oh let's go, let's go, let's go
Take love where the hurt is
            В
Let's go, let's go, let's go
            Abm
Take it to the lost
```
