tom:
Intro: Ab Cm F Cm
Ab F G G7

And the lord and the devil watching over me
Can go to hell and heaven, 'cause I was born free
[Refrão]

I light a match, let it to the ground
And this old barn is going down
I light a match, I set the fire free
And this old barn go down with me

[Primeira Parte]

Standing in the dead grass off of my backyard
I'm looking at them oak trees and my old barn
All I've ever had, locked up in here
My love and my hate, my hope and my fear
Friends and lovers, people from the past
They're all going down in a mighty blast

[Refrão]

I light a match, let it to the ground
And this old barn is going down
I light a match, I set the fire free
And this old barn go down with me

[Segunda Parte]

My boots and my saddle, well I don't need them no more
All left behind them old barn doors
