

# Hoobastank - Disappear

Tom: **C**

(intro e versos)

Do you know that everytime you're near everybody else seems far away

-  
Can you come and make them disappear. Make them disappear and we can stay

(bridge At 1:52 Heavy Distortion)

Can you make them disappear,make them disappear

whoaaa whoaaa whoaaaaa whoaaaaa

(first time this is played, the first **G** is omitted. This line is repeated a lot

throughout the song)

(acoustic part at 2:25)

There's a pain that sleeps inside it sleeps with just one eye

and awakens the moment that you leave.

And I search through every face without a single trace of the person

the person that I need.

(then he sings the chorus except you play the same notes as the Whoaaa whoaaa part)

(then the Whoaaa whoaaa part goes on for the rest of the song)

(this solo is going on during the Whoaa Whoaa part)

Whoaa Whoaaaa whoaaaaa whoaaaa

Whoaa Whoaaaa whoaaaaa whoaaaa
