Oh just to know you
to really taste and see
to really taste and see
To really walk with you
(walk with you)
to really walk with you
(walk with you)
Every moment, everyday
Walk with you
to be with you
to have my eyes open
to see you
to have my eyes open
to see you
to have my heart open
to know you
everyday, everyday

This love is an everyday kind of love
every morning am in it
This love is an everyday kind of love (every evening am in it)
every evening am in it (This love)
This love is an everyday kind of love
every morning am in it
This love is an everyday kind of love
every evening am in it

This love doesn't leave me all alone
and it never forgets it's own
This love will never leave me because my past is bad

Oh and this love lifts me up above the waves
I don't need to be overwhelmed
oh and it raises me upon rocks
so my feet could find stand in the ground.
It's every moment, everyday always,
his love is an every moment everyday always,
his love is an every moment everyday always, always, always,

(This love)
Oh this love is an everyday kind of love,
every morning am in it
This love is an everyday kind of love
every evening am in it
Oh this love never leaves you to walk a road alone
Oh his voice calls out above the north
Oh this love doesn't care if you don't think you can cut it
Oh it takes you in and it lifts you up
It gives you faith so you can lift your hand and you
can run real fast
You can feel his joy (This love, this love)
This love is an everyday kind of love
every morning am in it
This love is an everyday kind of love
every evening am in it
(This love is an everyday kind of love
every morning am in it)

There is no need to be scared afraid anymore
'Cause this love you will cast out fear
Oh, this love will cast out fear
So you can stand, so you can stand
There is no need to fear anymore
So just lift your head
Oh just lift your head

His love is not like anything you've ever known
Oh, it doesn't make sense
This love
This love will ruin every fear
I don't need to be scared, that fear is ruined
Oh, this love makes it, so you can finally be free
Oh, there is no chain this love can't break
There is no chain this love can't break
There is no chain this love can't break
So be free
There is no chain this love can't break

So be free, ohh
 There is no chain this love can't break

Be free
 There is no chain this love can't break

Be free, eeh
 There is no chain this love can't break

I believe it
 There is no chain this love can't break

There is no chain, ohh
 There is no chain this love can't break

Oh chain
 There is no chain this love can't break

I believe I believe
 There is no chain this love can't break

No chain No chain

There is no chain this love can't break

There is no chain this love can't break

Oh, this love isn't like anything you've ever seen
 (There is no chain this love can't break)

It can open any door
 (There is no chain this love can't break)

It can teach you to love
 (There is no chain this love can't break)

It will help you forgive
 (There is no chain this love can't break)

Forgive yourself, those who have hurt you
 (There is no chain this love can't break)

There is no chain this love can't break

There is no chain this love can't break
