

Hozier - To Someone From a Warm Climate (Uiscefhuarithe)

tom:
Capostrate na 1ª casa

[Primeira Parte]

A joy, hard learned in winter was the warming of the bed
..You'd shake for minutes there and move your legs
Wrap the blanket over you and keep your head within
Let your breath heat the air until you'd feel it getting thin
[Refrão]

'Uiscefhuaraithe'
..The feel of coldness only water brings
There are some things that no one teaches you, love
That come natural as a dream you didn't know that you were in
[Post-Refrão]

And darlin', all my dreamin' is only put to shame
And darlin', all my dreamin' has only been given a name
But it came easy, darlin'
As natural as another leg around you in the bed frame
[Segunda Parte]

In summer's heat, I learned to dread the comin' of the night
..The awful things we do to make the head go quiet

Acordes

You'd press your body to the concrete when you were small
The rains of winter seemed to never leave the walls
[Refrão]

'Uiscefhuaraithe'
..The feel of coldness only water brings
There are some things that no one teaches you, love
That God in his awful wisdom first programs in
[Post-Refrão]

And darlin', all my dreamin' is only put to shame
And darlin', all my dreamin' has only been given a name
But it came easy, darlin'
As natural as another leg around you in the bed
[Ponte]

And I wish I could say
That the river of my arms have found the ocean
..I wish I could say the cold lake water of my heart
Christ, it's boilin' over
[Final]

But it happened easy, darlin'
Natural as another leg around you in the bed frame
