Intro: E A E Dbm A B
[Primeira Parte]
You, there's no one in the world like you
                      Gbm7
So happy to call you friend
And though I haven't seen your face
I know till the end
[Pré-Refrão]
  If the world was gone and nothin' goin' right
I'd be with you tonight
[Refrão]
If you needed me I'd be there
To find your way back to anywhere
If I needed to call on you
                                            Gbm7 Ab A B
I know you'd know what to do a friend like you
[Segunda Parte]
Hard, I know this life can be so hard
Just tryin' to get back to now
       Е
You're searchin' for the truth
And I'll show you how
[Pré-Refrão]
And when darkness falls and nothin' you can see
```

```
Oh you know to count on me
[Refrão]
If you needed me I'd be there
To find your way back to anywhere
If I needed to call on you
I know you'd know what to do
When I'm lost and can't find my way
I look to you everything's ok
If I needed to call on you
                                   B Gbm7 E Gbm7 B
I know I can count on a friend like you
[Final]
If you needed me I'd be there
To find your way back to anywhere
If I needed to call on you
