

## **Engelbert Humperdinck - What Now My Love**

```
Tom: G
  Em7
What now, my love
                              G D
Now that you've left me
                                                  D7M G
How can I live
                         through another day
                     D
Watching my dreams, turn into ashes
                              Α7
And my hopes
                   into bits of clay
                      Em7 A7
                                                     Gbm Bm7
Once I could see, once I could feel

Em7 A Em7 A7 D D7M

Now I'm numb, I've become unreal
                             Em7 A7 D D7M
 D7
              Gm7 C7
                                    F7M Bb7
                      without a goal
I walk the night
                                        Em7 A A7
    Bb6
                     Gm Gdim
Stripped of my heart,
                              my
                                       soul
Em7
What now, my
               love
Now that it's over
```

```
A7 D7M G
I feel the world
                        closing in on me
Fm7
Here come the stars
                         tumbling around me
                                                     D D7M
                 Em7
There's the sky
                         where the sea should be
                       Em7 A7
What now, my love
                          Gbm7 Bm7
Now that you're gone
                           Em7 A7 D Con and on
                   Α7
                                     D D7M
                   to go on
I'd be a fool
     D7
                   Gm7 A7
                                              F7M Bb7
No one would care,
                     no one would cry
Bb6
                  Abdim Em7 A7 Em7
             Em7
If I should live
                  or
Fm7
What now, my love
Now there is nothing
                         A7 A
                                  D7M D D7M D
               Em7
Only my last, my last goodbye
```
