

# Hurts - Blind

tom:

G

Since the day I left you

D I hear your voice in every sound

Gbm

Since the day I left you

D I see your face in every crowd

E

It won?t go away

Bm D

But every time I feel you near

Gbm E

I close my eyes and turn to stone

Bm D

?Cause now the only thing I fear

Gbm E

Is seeing you better off alone

Gbm D A E

Cut out my eyes and leave me blind

Gbm D A E

Cut out my eyes and leave me blind

Gbm

With the wit of the world upon me

D A E

I can?t hold my head up high

Gbm D

So if you see me on the streets

A E

Turn away and walk on by

Bm D

?Cause after the beauty we?ve destroyed

Gbm E

I?m cascading through the void

Bm D

I know in time my heart will mend

Gbm E

I don?t care if I never see again

Gbm D A E

Cut out my eyes and leave me blind

Gbm D A E

Cut out my eyes and leave me blind

Gbm D

Girl, I told you after all we?ve been through

A E

I don?t wanna be by myself

Gbm D

Girl, I told you that it would tear me in two

A E

If I see you with someone else

Gbm D A E

Cut out my eyes and leave me blind

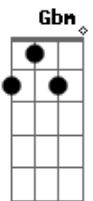

Gbm D A E

Cut out my eyes and leave me blind
