

Hush Kids - Color Of Sadness

```
tom:
The color of sadness
Is empty, empty lines
Fear is a fortress
Around me, around me
Heavy is the darkness
Thicker than the blood I bleed
River of loneliness
Flooding, flooding me C G D
Running down the highway in the middle of the night
With the white lines in the back of my, back of my mind
     G D
Sky is falling sideways and everything inside
Is changing, better hold on, better hold on tight
Hold on, better hold on, hold on tight
Color of sadness
```

Acordes

```
Living, breathing, keep it inside
In and out of focus
Falling, falling behind C G D
Running down the highway in the middle of the night
With the white lines in the back of my, back of my mind
Sky is falling sideways and everything inside
      Em
Is changing, better hold on, better hold on tight
Hold on, better hold on, hold on tight
Hold on, better hold on, hold on tight
The color of sadness
Around me, around me
The color of sadness
Around me, around me \operatorname{\mathsf{Em}} \operatorname{\mathsf{G}}
Color of sadness
Around me, around me
Em G
Color of sadness
Around me, around me
```
