Imagine Dragons - Bleeding Out

Tom: G
Intro: Em (4x) ??????

```
Em                C
I'm bleeding out
         G                    D
So if the last thing that I do
    Em            C
Is bring you down
     G                  D
I'll bleed out for
     Em
So I bare my skin
        C
And I count my sins
       G                     D
And I close my eyes and I take it in
    Em            C
I'm bleeding out
     G                  D
I'm bleeding out for you
       Em
For you
```

(Em C G D) (2X)

```
          Em         C
When the day has come
         G             D
That I've lost my way around
       Em        C
And the seasons stop
       G               D
And hide beneath the ground
         Em          C
When the sky turns grey
      G              D
And everything is screaming
         Em        C
I will reach inside
        G               D
Just to find my heart is beating
        Em            C
Oh you tell me to hold on
        G             D
Oh you tell me to hold on
       Em            C
But innocence is gone
     G                   D
And what was right is wrong
```

```
         Em           C
Cause I'm bleeding out
         G                    D
So if the last thing that I do
    Em            C
Is bring you down
     G                  D
I'll bleed out for you
     Em
So I bare my skin
        C
And I count my sins
       G                     D
And I close my eyes and I take it in
    Em            C
I'm bleeding out
     G                  D
I'm bleeding out for you
       Em
For you
```

```
          Em         C
When the hour is nigh
       G                   D
And hopelessness is sinking in
         Em           C
And the wolves all cry
       G                   D
To fill the night with hollering
             Em           C
When your eyes are red
       G             D
And emptiness is all you know
             Em         C
With the darkness fed
G                   D
I will be your scarecrow
Em                   C
You tell me to hold on
          G             D
Oh you tell me to hold on
         Em           C
But innocence is gone
       G                   D
And what was right is wrong
```

```
             Em         C
Cause I'm bleeding out
         G                    D
So if the last thing that I do
    Em            C
Is bring you down
     G                  D
I'll bleed out for you
       Em
So I bare my skin
        C
And I count my sins
         G                   D
And I close my eyes and I take it in
    Em            C
I'm bleeding out
     G                  D
I'm bleeding out for you
       Em
For you
```

(Em C G D)(4x)

```
         Em           C
Cause I'm bleeding out
         G                    D
So if the last thing that I do
    Em            C
Is bring you down
       G                D
I'll bleed out for you
       Em
So I bare my skin
        C
And I count my sins
         G                   D
And I close my eyes and I take it in
    Em            C
I'm bleeding out
       G                D
I'm bleeding out for you
       Em
For you
```
