

# Imagine Dragons - Fire In These Hills

tom:  
Capo: Db (forma dos acordes no tom de C)

Intro: C

I don't think that I'm strong enough

I don't think that I'm enough

[Primeira Parte]

And I know that you think about everything I did wrong but I do too

Staying up these nights, drinking everything, I got nothing without you

I fear I'ma die alone, I fear I'm knocking no one's home

Staying up these nights, thinking everything I did wrong to you

I don't think that I'm strong enough

I'm never enough

[Refrão]

'Cause there's fire in these hills

And I think I've lost my will

The more we drive, the more we fail

But after everything, you're here with m? still

'Cause there's fire in these hills

And I think I've lost my will

The more we drive, the more we fail

But after everything, you're here with m? still

[Segunda Parte]

Gonna turn this car around, open up, sit down, tell you all

the truth

Gonna fade myself out, talkin' myself down, lighting up this fuse

I feel I'ma wreck this home

I fear I'm knocking, no one comes

And I know you think about everything that I did wrong but I had you

I don't think that I'm strong enough

[Refrão]

'Cause there's fire in these hills

And I think I've lost my will

The more we drive, the more we fail

But after everything, you're here with m? still

'Cause there's fire in these hills

And I think I've lost my will

The more we drive, the more we fail

But after everything, you're here with m? still

( C Am G F )  
( G Am Em F )

[Final]

I'm so tired, can I please come home?

I've run so far, can I, can I come home?

I'm so tired, can I please come home?

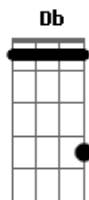

I've run so far, can I, can I come home?

I'm so tired, can I please come home?

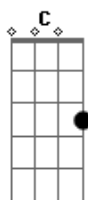

I've run so far, can I, can I come home?

I'm so tired, can I please?
