

Imagine Dragons - Ready Aim Fire

Tom: Eb

(com acordes na forma de Capotraste na 3ª casa C)

With out backs to the wall, the darkness would fall
 Never quite thought we could loose it all
 Ready aim fire, Ready aim fire
 An empire's falling just one day
 You close your eyes and the glory fades
 Ready aim fire, Ready aim fire away (fire!)
 Ready aim fire, Ready aim fire away

Off in the distance, staring's resistant
 Bottling up and festering
 Hey Mr Motion, make me a potion
 Shake it all up with your mystery
 How come I've never seen your face 'round here?
 I know every single face 'round here
 A man on a mission, changing the vision
 I was never welcome here

We don't have a choice to stay
 We'd rather die than do it your way

With out backs to the wall, the darkness would fall
 Never quite thought we could loose it all
 Ready aim fire, Ready aim fire
 An empire's falling just one day
 You close your eyes and the glory fades
 Ready aim fire, Ready aim fire away (fire!)
 Ready aim fire, Ready aim fire away

Ready aim fire, Ready aim fire away

Back in the casing, shaking and pacing
 This is the tunnel's light
 Blood in the writing, stuck in the fighting
 Look through the riffle's sight
 How come I've never seen your face 'round here?
 I know every single face 'round here
 Here in the heckle, holding the shackle
 I was never welcome here

We don't have a choice to stay
 We'd rather die than do it your way

With out backs to the wall, the darkness would fall
 Never quite thought we could loose it all
 Ready aim fire, Ready aim fire
 An empire's falling just one day
 You close your eyes and the glory fades
 Ready aim fire, Ready aim fire away (fire!)
 Ready aim fire, Ready aim fire away
