

Imagine Dragons - Thief

Tom: C

if only you

You could see the darkest place that you could be

Or maybe then you'd understand

Desert heat to cobalt streets

From home to the city beat

There's so much more than you could know

So take me back

When i believed

Back when i was unafraid just like a thief

All the heights

That i could reach

Back when i was unafraid just like a thief

if i could live a thousand times

If i could make a thousand tries

That everyone just wants to show

Maybe then i'd get it right

The more i see the more i know

No we don't want to see the truth

So take me back

When i believed

Back when i was unafraid just like a thief

All the heights

That i could reach

Back when i was unafraid just like a thief

when the stars look down on me

What do they see

when the stars look down on me

What do they see

when the stars look down on me

What do they see

when the stars look down on me

What do they see

when the stars look down on me

What do they see

(Dm C G)

(Dm C)

So take me back

When i believed

Back when i was unafraid just like a thief

All the heights

That i could reach

Back when i was unafraid just like a thief

Acordes
