

Inhale - We Have To Move On

tom:

[Primeira Parte]

On this rainy day
 I beg for your hand in marriage
 I feel it's been a pleasure
 To bathe in my own discomfort
 When I'm on my knees
 And I feel a little spontaneous
 Honey I've lost the ring
 But I want you to know it's on purpose

[Refrão]

Like it's your last night
 Move on
 Oh, the last lie
 So long
 If you go outside
 Move on
 Oh, the last lie
 Move on, Come on

[Segunda Parte]

I have made mistakes
 But I'd rather them said than spoken?
 Such serious things
 Never go unbroken

[Refrão]

Like it's your last night

Move on
 Oh, the last lie
 So long
 If you go outside
 Move on
 Oh, the last lie
 Move on, Come on

[Ponte]

Yeah, you have to move on
 Gotta leave it all behind, gotta stay down
 Cos we know we're gonna die, this is real life
 Life between the eyes, now we don't run
 But we're running out of time
 Oh, we have to move on
 Leave it on the line, gotta stay down
 You know we're gonna die, we have to move on
 You gotta leave it all behind
 You gotta take it, take it, take it
 Last night
 We have to move on
 And the last lie
 Only so long
 If you go outside
 You better move on
 We have to move on
 You gotta move on

Oh oh
