

## **INXS - Devil Inside**

```
Tom: G
                                                             BRIDGE:
  From: (john l bemont)
                                                             |Riff B | | |
break it into measures where I could.
                                                             VERSE same chords/tab as above except:
s = slide
p = pulloff
                                                             instead of C and A play this coming out of BRIDGE
h = hammeron
r = release
                                                              (hold for two measures) (hold for two measures)
Riff A
                                                             CHORUS (devil inside...devil inside...):
Riff B (not sure about placement in measures)
                                                             \mid: \mid \mid :\mid Intro: (starting at n.c. part with Riff A)
 in first two measures next two
                                             last one
                                                             VFRSF
Chords
                                                             CHORUS
   E A D G B E
C 8 10 10 X X X
                                                             BRIDGE II:
A 5 7 7 X X X
                                                             C F C F CF F Bb F Bb FBb
                                                             |: | |
                                                                                         : [
                                                                               3 2 0 0 0 3
                                                             GUITAR SOLO (sorry no tab, just improvise in G penatonic :)):
Em 0 2 2 0 0 0
   X X 10 9 8 X
                                                                              | repeat twice |
                                                                       X X 10 10 10 X
                                                            VERSE (only play Riff A once at the end)
F X X 15 14 13 X
                                                             CHORUS twice
                                                            BRIDGE II repeat and fade
Bb X X 15 15 15 X
Intro: C (C) n.c.
                                                             violator--"Sorry officer. I think there was something wrong
VERSE (Here comes the woman...):
                                                             with my gas
                                                                       pedal."
                                                             policeman--"Yes, it must have been deeply depressed."
                      |: Riff A|
                                                             Later,
                                                                Les
```

## **Acordes**
