

# INXS - Mistify

Tom: C

**Dm** **Am**  
All veils and misty

**G**  
Streets of blue  
**F** **Dm** **Am**  
Almond looks

**G**  
That chill divine  
**F** **Dm** **Am**  
Some silken moment

**G**  
Goes on forever  
**F** **Dm** **Am**  
And we're leaving broken hearts behind

**Am**  
Mystify  
**C** **G**  
Mystify me  
**Am**  
Mystify  
**C** **G**  
Mystify me

(Idem Verso 1)

I need perfection  
Some twisted selection  
That tangles me  
To keep me alive

In all that exists  
None have your beauty  
I see your face  
I will survive

**Em7** **G7**  
Eternally wild with the power  
**Em7** **G7**  
To make every moment come alive  
**Em7** **G7**  
All those stars that shine upon you  
**Em7** **G7**  
Will kiss you every night

All veils and misty  
Streets of blue  
Almond looks  
That chill divine  
Some silken moment  
Goes on forever  
And we're leaving  
Yeah we're leaving broken hearts behind

**Em7** **G7**  
You're eternally wild with the power  
**Em7** **G7**  
To make every moment come alive  
**Em7** **G7**  
All those stars that shine upon you  
**Em7** **G7**  
And they'll kiss you every night
