

# INXS - Mystify

Tom: **C**

All veils and misty **Dm** **Am**

Streets of blue **G**

**F** **Dm** **Am**

Almond looks **G**

That chill divine

**F** **Dm** **Am**

Some silken moment **G**

Goes on forever

**F** **Dm** **Am**

And we're leaving broken hearts behind

**Am**

Mystify

**C** **G**

Mystify me

**Am**

Mystify

**C** **G**

Mystify me

(Dm-Am-G-**F**)

I need perfection

Some twisted selection

That tangles me

To keep me alive

(Dm-Am-G-**F**)

In all that exists  
None have your beauty  
I see your face  
I will survive

**Em** **G7**

Eternally wild with the power

**Em** **G7**

To make every moment come alive

**Em** **G7**

All those stars that shine upon you

**Em** **G7**

Will kiss you every night

(Dm-Am-G-**F**)

All veils and misty

Streets of blue

Almond looks

That chill divine

Some silken moment

Goes on forever

And we're leaving

Yeah we're leaving broken hearts behind

**Em** **G7**

You're eternally wild with the power

**Em** **G7**

To make every moment come alive

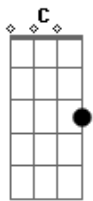

**Em** **G7**

All those stars that shine upon you

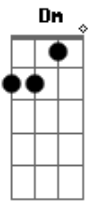

**Em** **G7**

And they'll kiss you every night
