

Iration - Wait And See

Tom: **A**

I know we've always been a long shot,
I'm down to roll those dice.

I'll travel down that long hard road girl,
just to make you know that I tried

We might not make it in the end but,
we'll sure enjoy that ride

At least we'll have this song to remember,
the way we felt that night.

(Refrão)
I'm all in til you make it with me
I'll read it written on that old marquee

Take a chance
just wait and you'll see
oooh Wait and See

I know we've always been a long shot
I'm down to run all night

Travel through the rain and cold girl
Just to make you feel alright

We might not make it in the end but
We'll sure enjoy that ride

At least you'll have this song to remember
to remember me by

Refrão:
I'm all in til you make it with me
I'll read it written on that old marquee

Take a chance
just wait and you'll see
oooh Wait and See

I'm all in til you make it with me
I'll read it written on that old marquee

Take a chance
just wait and you'll see
oooh Wait and See

I'm all in til you make it with me
I'll read it written on that old marquee

Take a chance
just wait and you'll see
oooh Wait and See

I'm all in til you make it with me
I'll read it written on that old marquee

Take a chance
just wait and you'll see
oooh Wait and See.
