[bridge first riff]  
(play this a little fast)

Repeat first riff 4 times  
[bridge second riff]  
(for second guitar)

First guitar should play first riff 4 times while  
Second guitar plays the second riff.

Slow down at the last for notes to get fade to the  
quiet part

[Quiet Part]

This is easy to play but watch the measure because  
it changes all the time from 8/5 to 8/3

This is repeat several times.

Repeat this also several times and then go back to  
Em.  
Singer sings today is born the seventh son...

[Bridge to heavy part]

Fast solo not included.

I hope this will help you a lot. Besure to study

the bridge first riff and second riff well. If you  
can play them well you have an excellent exercise  
to warm your fingers before playing.
