

# Iron Maiden - Still Life

Tom: A

by Iron Maiden(Harris/Murray)

Intro: Gtr II (Adrian)

I'll show the picking pattern for the three chords used in the backing to the solo. I'll show the chord changes with the solo.

Played with a 3/4 time feel.

"Quiet" bit with "Take a Look..."

I'll try and show the basic idea. Finger the open Am and try to follow the melody by lifting your finger on 2nd string. Then pick the F chord anyway you want.

Am

F

G A A G

Oh! They drain my strength away...:

C

Main Verse Riff:

Similar idea to the previous part except you follow the melody on the 3rd string. When muting the strings and strumming between the parts shown lift your 3rd or 4th finger off the 3rd string, i.e. don't hold the melody notes down, just keep the A power chord fingered. Play the extended notes with upstrokes to emphasise the melody.

G A G

Sometimes Gtr II plays:

C

Oh! They drain my strength away...

CHORUS:

Both Guitars.

A (G) A F C

Night - mare-res

A (G) A F C

Spirits call me

Night mare-ares

They won't leave be

BREAK:

Gtr I:

D C D E F

Play with upstroke

A G A G A

Gtr II:

D C D E F A G A G A

THE HARMONY:

I'll just show the notes, move between notes with hammers and pulls wherever it feels natural. The approximate bassline is shown aswell.

RHYTHM FOR SOLO'S: Listen for strumming and muting.

Solo 1:

D E F A G F

Solo 2:

E Gb Ab B A G

ENDING:

Play with upstrokes

A G A G A

Now we rest in peace.

SOLO'S:

Transcribing solo's is not my strong point but you should the main ideas from the following. These are the album solo's. Some of fast licks, especially Dave's are more approximations than anything else.

Solo 1: (Adrian)D minor

Bend, Tap, release tap, release bend and pull off.
