                    F
        F                      Bb
Mama called you baby center stage
        Gm                  C     Bb
She could really run her mouth
F                       Bb
Baton rouge called you petit ange
        Gm                  C    Bb
And birmingham could run you out

F                             Dm
Doesn?t anybody see how scared you are?
Gm
There was a time I was running you down
         C                      Bb
But the world kept spinning round
F                             Dm
Doesn?t anybody see how scared you are?
Gm
There was a time when you were running to me
         C                      Bb
But the lightning spared the tall tree

F                             Bb
When your moon lights up the riverside
F     Gm          C     Bb
Making mud and bad blood
        F              Bb
You can call me anytime
              Gm        Bb            F
For all it?s worth, louisiana?s still not enough

          Bb      F
In your restless days
        Gm              C
I got lost, I got saved
             Bb       F
In your restless nights
          Gm
I swam blind
                        C
Somehow falling into the light

( F   Bb   Gm   C   Bb )
( F   Bb   Gm   C   Bb )

Doesn?t anybody see how scared you are?
Gm
There was a time you were running to me
         C
But the hurricane had mercy

F         Bb          F
In your restless days
         Gm                 C
All that wind, all those waves
          Bb             F
In your restless nights
               Gm
We closed our eyes
                             C
Killed each other and came to life

          Bb          F
In your restless days
          Gm                C
I made my bed, I dug my grave
          Bb             F
In your restless nights
               Gm
We both swam blind
                        C
Somehow falling into the light
