

Isabella DiPietro - So Much More

tom:
Bb (forma dos acordes no tom de G)
Capostrate na 3ª casa

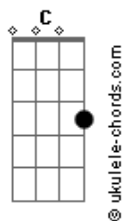

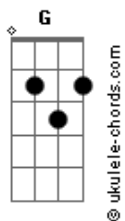

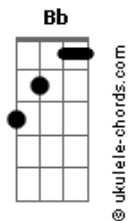

How quickly you came into my life
I wasn't longing 'till you passed me by
Now I never wanna say goodnight
I hate that goodnight means goodbye
But someday we'll have all the time
'Cause hours and hours just isn't enough

I prayed for a man who'd pray for me
One who'd fear God, one who'd lead
But still I never could have dreamed
He'd love me this good, he'd be so sweet
He'd have everything I could ever need
And more

Shows me he loves me in the way he acts
Reminds me who I am in God and not my past
Only God could have made this man

And everyday I'm with you

Acordes

I think I could never love you more
But every day I find
That I love you more than the day before
And I know that tomorrow
I'll love you more
So much more
So much more
I prayed for a man who'd pray for me
One who'd fear God, one who'd lead
But still I never dreamed
He'd love me this good, he'd be so sweet
He'd have everything I could ever need
And more
So much more
So much more
So much more
Oh
