[Primeira Parte]

You know I can imagine why
You live in your disguise
I hate it when you hide
I can read it in your lies
You knew it, you blew it
Do it every time
The green grass stopped growing
Over on this side
But nobody can water it like you
They say, ?love comes, love goes?
But when this thing ends
We'll need a doctor
It?s gon? be a problem

[Pré-Refrão]

You changed on me
How you got like that?
I know what it is
I fall right back
My heart is a piece of the puzzle
Break it up, put it back
Then you fumble

[Refrão]

Do you ever m?an what you say?
Do you really mean it that way?
We?r? so black and white,there?s no grey
No grey
It?s a lot of flags in my face

All you see is red like this lace
We?re so black and white, there?s no grey
No grey

[Segunda Parte]

I don?t get mad now when we fight
It?s a cycle in our lives
Red roses won?t suffice
I hate that your my vice
We blew it, so screw it
Thought we could get it right
Our white sheets stay frozen
I?m sleeping on your side
?Cause nobody can warm this bed up like you (Like you do)
