

## Jack Johnson - Don't Look Now

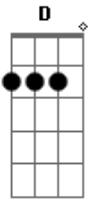

tom:  
D  
Come on, wake up  
How late were you up?  
G A  
Late enough to see the Sun  
D  
I know that we're turnin'  
But it feels like it's risin'  
G A  
It doesn't really matter which one  
D  
To know that I feel things  
D  
Or feel like I know things  
G A  
Or sing like no tomorrow comes  
D  
But it comes like a thief in the night  
D  
Look for what's left in the light  
G  
If you steal it, you're gonna to have to deal  
A  
With the light when it's gone

G D Bm D A  
Don't look now, but somehow we got shook up  
G D Bm D A  
Good luck, baby, we're only animals in love

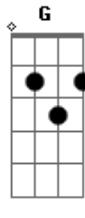

D  
With all that's around us  
D  
And all that's within us  
G A  
All the numbers add up to one  
D  
But I can't find the one thing  
D  
Even though the one thing  
G A  
Is choppin' down the tree that I'm on  
D  
I think I need reflection  
D  
I think I'm gettin' colder  
G A  
I don't want to think anymore  
D  
But it comes again no matter if I sing or think about it  
G  
In the end, it begins again  
A  
All the way down

G D Bm D A  
Don't look now, but somehow we got shook up
