

Jack Johnson - Is One Moon Enough

```
Tom: D
Intro: D
[Primeira Parte]
Is one moon enough
If I can see
With my cheap telescope?
Bet my neighbor has two or three
Down soon enough
What does it mean
If every time I look up
I see them
Laughing down on me?
[Refrão]
Take that moon or break across the sea
Everything I want's just out of reach
[Segunda Parte]
Is one moon enough
Well, it used to be
When I could see with my own naked eye
She was smiling down on me
```

Acordes

```
Is one ever enough?
How could it ever be if my neighbor has more than me
And my moon
Just out of reach
[Refrão]
Take that moon or break across the sea
             G
Everything I want is further from me
Hmm, hmm, hmm
Moon down soon enough
Now I can see a million moons that think of
Me and my moons
Always following me
[Terceira Parte]
Take that moon or break across the sea
Everything I want is just out of reach (hmm, hmm)
Why's that moon always following me? (hmm, hmm)
Everything I want's just out of reach (hmm, hmm)
Hmm, hmm, hmm
```
