

## Jack Johnson - Losing Hope

```
Intro: Am C G
                                                               With the same old stars
                     [REPETE]
I got a faulty parachute
                                                               Losing hope is easy
I got a stranger's friend
                                                               When your only friend is gone
An exciting change in
                                                               And every time you look around
My butchers blend
                                                               Well, it all, it all just seems to change
A symbol on the ceiling
C G
With the flick of a switch
                                                               Feed the fool
                                                               A piece of the pie
Yeah my new found hero
And the enemy's ditching
                                                               Make a fool of his system
                                                               Make a fool of his mind
                                                               C G
                                                               Give him bottles of lies
Well somebodies something was left in a room
                                                               And maybe he'll find
And now that its gone well of course we assume
                   C G
Am
Somebody else needed something so bad
                                                               His place in heaven C G Am
                                                               Cause he might just die
They took everything somebody had
Losing hope is easy
                                                               Losing hope is easy
When your only friend is gone D G
                                                               When your only friend is gone
And every time you look around
                                                               And every time you look around
Well, it all, it all just seems to change
                                                               Well, it all, it all just seems to change
                                                               But hanging on is easy
The mark was left
                                                               When you've got a friend to call
Man it's never the same
                                                               When nothings making sense at all G
Next time that you shoot
                                                               You're not the only one that's afraid of change
Make sure that you aim
                                                               (Repete Intro)
Open windows with passing cars
                                                               finaliza em Am
A brand new night
```
