

Jack Johnson - Losing Keys

Tom: **G**

Tocar apenas uma vez cada acorde.

Don't worry **G**

Everybody in the room notices you **C** **G**

Sit back and relax **G**

The night is early **C**

We are about to overdo it **G**

So come and tell me something that you've already told me **Am7** **D**

Cause everybody's heard our lovely stories **Am7** **D**

I'm hoping some of them are true **G**

I've been losing lots of keys lately, **G**

I don't know what that means **D**

But maybe I've been better off with things that can't be **Em**

locked at all **C**

I've been feeling kind of sea sick lately, **G**

See you reaching to me gonna save me **D**

You were me, I would much rather take the fall **Em** **C**

The world has its ways **Am7**

To quiet us down **D**

The world has its ways **Am7**

To quiet us down comes the rain **D** **C**

Down comes our spirits again **C**

But down comes the strength **D**

To lift us up and then... **D**

G **D** **Em** **C** 2x

Tchuru .. tchururu...

G **D**

Been going upwind now **Em**

For too long **C**

Forget how **G**

To let go **D**

Seems too hard **Em**

Too late now **C**

To turn around

Am7

The world has its ways **D**

To quiet us down **Am7**

The world has its ways **D** **C**

To quiet us down comes the rain **D**

Down comes our spirits again **C**

Down comes the strength **D**

To lift us up and then...

Repete até terminar

G **D** **Em** **C**

Tchuru .. tchururu...
