

Jack Johnson - Losing Keys

Tom: **G**

Tocar apenas uma vez cada acorde.

Don't worry **G**
C Everybody in the room notices you **G**
G Sit back and relax
C The night is early
G We are about to overdo it
Am So come and tell me something that you've already told me **D**
Am Cause everybody's heard our lovely stories **D**
G I'm hoping some of them are true

G I've been losing lots of keys lately,
D I don't know what that means
Em But maybe I've been better off with things that can't be
C locked at all
G I've been feeling kind of sea sick lately,
D See you reaching to me gonna save me
Em You were me, I would much rather take the fall **C**
Am The world has its ways
D To quiet us down
Am The world has its ways
D To quiet us down comes the rain **C**
D

Down comes our spirits again **C**
 But down comes the strength **D**
 To lift us up and then...

G **D** **Em** **C** 2x
 Tchuru .. tchururu...

G **D**
 Been going upwind now
Em For too long
C Forget how
G To let go
D Seems too hard
Em Too late now
C To turn around

Am The world has its ways
D To quiet us down
Am The world has its ways
D To quiet us down comes the rain **C**
D Down comes our spirits again
 Down comes the strength **C**
D To lift us up and then...

Repete até terminar
G **D** **Em** **C**
 Tchuru .. tchururu...
