**B**  
No good with faces and i'm bad with names  
**Abm** **E**  
Gave me directions but its all the same  
**B** **Abm**  
I'm lost  
**Gb** **E** **B**  
I'm too tired to try

**B** **Eb**  
Street lamps are broken black the way I came  
**Abm** **E**  
Who broke the moonlight watch it wax and wane  
**B** **Abm**  
I'm lost  
**Gb** **E** **B**  
I'm too tired to try

(refrão)

**Abm** **B**  
Let's not get ahead of ourselves now  
**E** **B** **Abm**  
There's no need for rain it's our own parade  
**Abm** **B**  
Let's not be afraid of our reflections  
**E** **Eb** **B**  
It's not only you You're looking at now

( **B** **Eb** **Abm** **E**

**B** **Abm** **Gb** **E** )

Road signs were stolen  
Left here holding this flame  
Who stole my patience  
Who stole my way  
I'm lost  
I'm too tired to try

Let's not get ahead of ourselves now  
There's no need for rain  
It's our own parade  
Let's not be afraid of our reflections  
It's not only you  
You're looking at now

Let's not get ahead of ourselves now  
There's no need for rain  
It's our own parade  
Let's not be afraid of our reflections  
It's not only you  
You're looking at now  
Who you looking at now  
Who you looking at now

No good with faces  
And I'm bad with names  
Gave me directions  
But it's all the same  
I'm lost  
I'm too tired to try
