[Primeira Parte]

C        (C7  C  C7 )     F
When I woke, I was not awake
                        G
Light from the sun felt so far away

C          (C7  C  C7 )    F
I went up, with all of my strength
                          G
Straight for the sun, from the depths I sprang
      F                G
And I drank from the sea
        C            (C7  C  C7 )    F
But it opened up and swallowed me
                     G
So I sank down deep
        C    (C7  C  C7 )       F
No I'm drunken like a seasick dream
     Cdim        G7
```

        C            (C7  C  C7 ) F
Well when did all of the waves
                          G
Roll right in and make me their slave
        C   (C7  C  C7 )   F
So I went so far away
                            G
I didn't look back, I'll come back someday
           F              G
Mamma wept, and she weeped
          C                (C7  C  C7 )          F
She said horizon don't you take him from me
                     G
Black sails on the sea
          C        (C7  C  C7 )   F
Just carry me until I can be
     Cdim         G7           C (C7  C  C7 ) F  G
