Baby you can be my catfish

I never see you I just text you on the phone

And you look just like that actress

What's the name?

I'm afraid that if I see I'm freakin' suffocate

Do a backflip

Yeah, I'm knocking at your door

But I die til they put me in a casket

People say jay your just over-reacting

But your like the girl that I never had

You're my catfish

I never see you I just text you on the phone

And you look just like that actress

What's the name?

I'm afraid that if I see I'm freakin' suffocate

Do a backflip

Yeah, I'm knocking at your door
