Jake Bugg - Indigo Blue

```
                          tom:
               C

           Dm          Am       C               G
 Hovering down, pitting at the question howl
Dm          Am       C                 G
Maybe I'm weird, would explain why I'm so scared
Dm          Am       C                 G
Area grey scared of being wrong, I stay
Dm          Am      C      F        Am
And as I fear, everything's still unclear

                       F
From the top of this mountain
             Am
Beyond the horizon
         F
Indigo blue
C             G       Dm - C - Am - G
Puddling all over my eyes

Dm          Am       C                 G
My body is bruised, the colour of indigo blue
Dm          Am       C                 G
My mind confused, why I'm no one that you choose?
Dm          Am       C                 G
I wish the noise would cover up my conscience voice
Dm          Am      C      F        Am

Every bad dream I'm told that it's not my choice

                       F
From the top of this mountain
             Am
Beyond the horizon
         F
Indigo blue
C             G        Dm
Puddling all over my eyes

Gm7                      Am7
And I'll always make pain-making mistakes
F                      C    Dm
But I don't care if you're mine
Gm7                      Am7
And if my heart breaks, keep our pictures on display
F                                C     Dm
'Cause I'll love you 'til the end of time

                       F
From the top of this mountain
             Am
Beyond the horizon
         F
Indigo blue
C             G       Dm - C - Am - G
Puddling all over my eyes
```
