Anyone in love
        Bm7               E7
Knows that you can't just leave
Bm7          E7            C7M
Roll up your sleeves and say bye
         Bm7            E7
Knows that hearts break in two
Bm7            E7
This can happen to you
Am7                  C
   We all play the silly little games
Gbm7                  B7
Call each other names and so
         C7M            G7M           C7M
But those in love, face each day that hits their eyes
       G7M       C7M                Am
And it comes with no surprise that they
                D7
Could never let go
    C7M
Oh, anyone in love
     Bm7          E7
Fears the past is complete
    Bm7          E7       C7M
No sign of repeating its joy

     Bm7                E7
Feels each memory, each touch
     B7            E7
But still ain't enough
Am7            C
   Sometimes we look up at the moon
Gbm              B
```
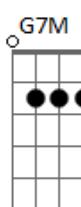

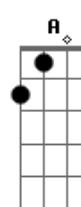

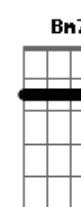

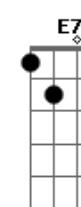

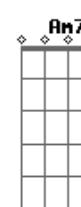

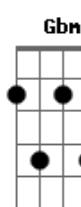

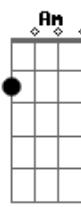

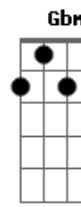

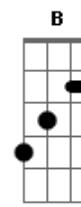

```
Hoping very soon they'll come
           C7M           G7M         C7M
But those in love spend each night and reminisce
       G7M       C7M                Am
The days when sun kissing were fun
                        D7
When those days are done
       C7M
Oh, anyone in love
           Bm7               E7
Hears a voice through the town
       Bm7       E7        C7M
Though no one's around at all
            Bm7          E7
Nearly dies to the thought
        Bm7            E7
Of a thrill that's lost
     C7M          Bm7 E7 Bm7 E7
Anyone in love

[Interlúdio]  C7M   Bm7   E7   Bm7   E7

C7M
Anyone in love
        Bm7            E7
Take heed what I said
Bm7         E7           C7M
One of these days you'll learn
C7M
Anyone in love
Bm7                  E7
Those walks in the park
       Bm7            E7
Will soon lose its spark
        C7M
Anyone
        Bm7       E7      Bm7   E7
Oh, anyone, yeah, oh
C7M
(Anyone) Anyone
