[Primeira Parte]

C
Anyone in love
        Bm              E7
Knows that you can't just leave
Bm           E7           C
Roll up your sleeves and say bye
           Bm             E7
Knows that hearts break in two
Bm                E7
This can happen to you
Am                C
    We all play the silly little games
Gbm                      B7
Call each other names and so
             C              G                  C
But those in love, face each day that hits their eyes
       G           C               Am
And it comes with no surprise that they
                D7
Could never let go
    C
Oh, anyone in love
      Bm         E7
Fears the past is complete
   Bm              E7      C
No sign of repeating its joy

     Bm                E7
Feels each memory, each touch
    B7          E7
But still ain't enough
Am            C
  Sometimes we look up at the moon
Gbm             B

Hoping very soon they'll come
             C            G         C
But those in love spend each night and reminisce
    G       C               Am
The days when sun kissing were fun
                    D7
When those days are done
    C
Oh, anyone in love
         Bm               E7
Hears a voice through the town
       Bm      E7        C
Though no one's around at all
       Bm         E7
Nearly dies to the thought
     Bm           E7
Of a thrill that's lost
   C          Bm E7 Bm E7
Anyone in love

[Interlúdio] C  Bm  E7  Bm  E7

C
Anyone in love
    Bm          E7
Take heed what I said
Bm          E7          C
One of these days you'll learn
C
Anyone in love
Bm               E7
Those walks in the park
    Bm            E7
Will soon lose its spark
   C
Anyone
    Bm     E7    Bm  E7
Oh, anyone, yeah, oh
C
(Anyone) Anyone

[Final] Bm  E7  Bm  E7
