

Jalen N'Gonda - If You Don't Want My Love

tom:

D

Intro: D Bm D Bm
D Bm D Bm

In this night, a starry sky
My baby told me with a sigh
Saying words that came across as a doubt
I reassured that every day my love is strong in every place
In your heart, I sho'nuff can't live without
Every mountain, every sea can never stray or burden me
No matter the state of space and time
Keep us close and keep us dear
Not just today, but every year
You were made to be a focus in my mind, hmm

But if you don't want my love
And if you want something more
Said if you never wanted my love
Let me know, oh

(D Bm D Bm)
(D Bm)

You're not bound by a vow
Could be tomorrow or even now
If you want another spoke to look inside
I'll be the person of your dreams
Or your lover in-between
Every corner in caverns of your mind

But if you don't want my love
And if you want something more, baby, baby
Said if you never wanted my love
Let me know, let me know

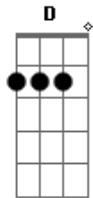

Let, let me know

Come on, baby

Let me know

Oh, let me know
